Te Ara Tipuna: He Hononga Whakapapa

Tena koutou i roto i nga tini ahuatanga o te wa. Tena hoki koutou i runga i nga kawai whakapapa e tuhonohono nei i a tatau, a whanau, a hapu, a iwi. He hononga tukuiho, he hononga kua roa nei e mau ana ki te whatumanawa o tena, o tena, a, e kore e taea te karo.

We are writing to let you know that the Te Ara Tipuna Charitable Trust has decided to reduce the scope of our resource consent application for the Te Ara Tipuna Trail. The changes proposed will mean that the application only covers the length of the trail within the rohe boundaries of Ngati Porou – mai i Te Toka-a-Taiau ki Potikirua. This application will no longer consider any activities in your rohe.

We conceived this Kaupapa as an opportunity for the four Iwi between Gisborne and Opotiki to strengthen our connections with one another and bring opportunities for all. The introductory consenting work under the Resource Management Act has been done on that basis - as a gift, not an obligation. If in the future your iwi wishes to progress this Kaupapa within your rohe, all we have learnt will be available to you.

We acknowledge that the Councils' notification correspondence has caused confusion and undeserved concern. We hope you might help resolve that concern by sharing with landowners and communities within your rohe that we have decided to reduce the scope of the application to only cover the Ngati Porou rohe, and will no longer relate to any activities outside these boundaries.

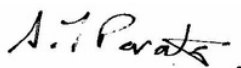

We anticipate that the reduced scope of the application will mean that many of those who made submissions on the application within your rohe will no longer be interested in the resource consent process. Those who no longer wish to be involved can withdraw their submission by emailing the Gisborne District Council at: notifiedrc@gdc.govt.nz, and requesting that their original submission on the application be withdrawn.

We anticipate providing formal confirmation of the reduced scope of the application to the Councils by the end of this week. However, we wanted to let you know of our decision directly and in advance of that formal process to avoid any confusion and provide for direct engagement.

We have advised the other three iwi of the Board's decision.

We conceived this Kaupapa as an opportunity for the four Iwi between Gisborne and Opotiki to strengthen our connections with one another and bring opportunities for all. The introductory consenting work under the Resource Management Act has been done on that basis - as a gift, not an obligation. If in the future those iwi wish to progress this Kaupapa within their rohe, all we have learnt will be available to them.

We acknowledge that the Councils' notification correspondence has caused confusion and undeserved concern. Te Ara Tipuna will work with directly affected landowners going forward.

We anticipate providing formal confirmation of the reduced scope of the application to the Councils by the end of this week. However, we wanted to let you know of our decision directly and in advance of that formal process to avoid any confusion and provide for direct engagement.
